

ATMOSPHERIC WATER GENERATORS

INDIVIDUAL, SQUAD, & PLATOON-LEVEL SUPPORT

MODEL SAWG-150 | WATER FROM AIR

The newest atmospheric water generator product by Snowbird Technologies is the Model SAWG-150 built onto a single-axle trailer with an integrated 20kW generator - bringing portability and sustainment to larger expeditionary units in forward-operating environments.

FEATURES

- Constructed inside of a durable, aluminum cabinet with maintenance access points.
- Specific design features will allow the unit to be damage resistant in use and transport.
- Includes a 20kW generator for truly independent operation.
- Rainwater collection seam on top of the unit allows for the collection and distilling of rainwater.
- A simple, easy-to-use control panel on the front of the unit gives access to all functions.

PLATOON-LEVEL SUPPORT

SPECIFICATIONS

Daily Water Output	150 gallons
Max Operating Temp	125°F
Min Operating Temp	45°F
Internal Water Storage	75 gallons
Primary Power Voltage	208 volts AC, single phase
Primary Operating Amps	52.4 A
Power to Water Ratio	1.75 kWh per gallon
Max Operating Amps	80 A
Overall Dimensions	85"W x 139"L x 85"H
Empty Weight	4,020 lbs
Water Dispensing Rate	4 gallons per minute
Filtration	2 independent systems featuring reusable sediment pre-filter and 15K gallon disposable multi-stage filter
Final Purification	2 independent UV-C purification chambers
Water Storage Treatment	Ozone treatment recirculating system
Dispenser Spigots	2
20 kW Generator	50 gallon fuel storage for 24-hr operation between fueling
